For

2018/2019

Eastern Cape

1st Draft: August 2017

2nd Draft: November 2017

Final Draft January 2018

Introduction by the Chairperson of the Board

This Annual Performance Plan provides a clear commitment by the SALB Board, SALB Management and the staff of the Library to achieve the objectives for the 2018/19 financial year. The APP is guided by the 2015/19 Strategic Plan of the Library. The objectives have been agreed upon by the Board of the SALB based on the expectation that all required resources such as funding, staff, equipment and material will be available to achieve the objectives. The Board and Management of the Library is committed to achieve these objectives with the required support from the Department of Arts and Culture and in partnership with external stakeholders where applicable. The Technical Indicators of each objective provides additional detail of each objective. The Board is aware of the Library's responsibility as a Public Entity and hence linked objectives to National Priorities of Government and the United Nations Convention on the Rights of People with Disabilities which was signed and ratified by the SA Government where applicable.

As the only Library for the Blind in South Africa and on the African Continent the Board is committed to ensure that the Library's Legal Mandate as described in Act 91 of 1998 is not just honoured but also implemented because of its profound impact on the lives of blind and visually impaired people. The Annual Performance Plan will serve as an active guide on the activities of the Library. Regular report to the Board and the Executive Authority will serve as instruments to monitor progress. The Annual Performance Plan has been developed with the cooperation of all the Sections of the Library. The Board of the SALB is confident that the objectives will contribute to recognise the information and reading needs of the Blind and visually impaired population of South Africa and respond positively to that need.

Dr. W. Rowland:

Board Chair

It is hereby certified that this Annual Performance Plan:

a. Was developed by the Management of the South African Library for the Blind.

b. Was prepared in line with the current Strategic Plan of the South African Library for the Blind.

c. Accurately reflects the estimated performance targets which the South African Library for the Blind will endeavor to achieve given the resources available in the budget for 2018/2019

Y. Ramcharan: Chief Financial Officer   **F. Hendrikz: Accounting Officer**

Foreword by the Accounting Officer

The Annual Performance plan of the South African Library for the Blind is confirming its commitments for the 2018/2019 financial year. The commitments are an indication to the beneficiaries of the library that the library will deliver services and products in response to their reading, information and recreational needs. The commitments are an indication to taxpayers of South Africa how public funds will be spent and that the Library is adding value to the lives of people with print disabilities. The commitments are an indication to various Government structures that the library is contributing to the development of the country by supporting the objectives of the National Development Plan and the Medium Term Strategic Framework 2014-2019. The library is therefore an important National strategic partner playing its part to grow and develop South Africa and to make South Africa a more inclusive society. It is also an indication that the Board and Management of the library is committed to sound financial governance and general governance practices.

Finally, the Annual Performance Plan is a clear commitment of all library staff to produce and develop accessible reading material and library services in a dedicated manner. The Board, Management and Staff of the library is committed to deliver the best library services possible to blind and visually impaired people across South Africa – this plan is a confirmation of that. In addition, the Library has a proud history of 99 years of service delivery and governance excellence and this Annual Performance Plan is an affirmation to continue that commitment.

F. Hendrikz: Accounting Officer

Part A: Strategic overview

1. **Situational analysis**

   The SALB operates under the National Archives and Library Services Programme of the Department of Arts & Culture, i.e. to facilitate full and open access to archival and information resources of South Africa. In the SALB's case these activities are focused on the blind and visually impaired citizens of South Africa. The objectives of the library therefore is in support of the Department of Arts & Culture's objective to guide, sustain and develop library and information resources of South Africa so that good governance is supported, socio-economic development is sustained and citizens are empowered through full and open access to these resources. There are, however, a number of challenges facing blind and visually impaired people when it comes to access to information resources. These challenges influence the SALB in executing its core mandate and the role it plays on a broader social level. As part of strategic resource planning the Library is faced by the following challenges:

   - Scarce skills:
   - Organizational structure
   - Building constraints
   - Connectivity
   - National funding priority
   - Expensive and imported technology
   - Target market expansion
   - Legal compliance funding needs
   - Copyright and International access to reading material

   In terms of opportunities the Library is the only one of its kind, not only in South Africa but also on the African Continent. Although there are scarce skills in audio and Braille production the library has well trained staff to produce accessible reading material for blind and visually impaired people. The Library's content is digitized which makes it easy to distribute material nationally and internationally. The Library plays an important role in collaboration with International organisations such as the World Intellectual Property Organisation to address the lack of sharing digital book files across international borders. The Library is also a member of the International Federation of Library Associations where we share and exchange knowledge about library service delivery to our unique market. The Library has added a third reading format to its production line, i.e. tactile books for pre-school children. This contributes to literacy and the love for reading with children. Collaboration with Provincial Library Authorities contributed to the establishment of Digital Library Service Points in various public libraries. Expanding the membership base of the Library through this Minilibrary Project is crucial to reach as many members as possible.
   The Mzansi Golden Economy of DAC provides additional opportunities for the SALB specifically in skills development and employment. The SALB has initiated an annual program whereby blind and visually impaired learners in Grade 11/12 will have the opportunity to learn all aspects of the operations performed by the Library. Apart from receiving a stipend during the period at the library it will expose the learners to various career options they may consider after completion of their school studies.

2. **Performance environment**

The Performance Environment of the Library is guided by the areas mentioned in the previous section. The environment is limited due to the small but important market served but the challenges faced by the market are huge in terms of accessibility to reading material.

Nationally

There are three important documents that served as guide for the SA Library for the Blind in its strategic planning. The **National Development Plan 2030** (NDP) provides a long-term perspective of a better South Africa. It defines a desired destination and identifies the role different sectors of society need to play in reaching that goal. The SA Library for the Blind is one of those role-players. Although libraries are not specifically mentioned the underlying principle of access to information is captured in the document and supported by the Library in its collection development activities and distribution or reading material across South Africa. Access to information is enshrined in the Bill of Rights and Article 32 of the South African Constitution and the various functions of the Library are in support of that. In addition, the Library is also supporting principles such as access to Life Long learning (the type of material added to the collection of the Library), access to public spaces (.i.e. through the roll-out of Mini-libraries at local authority level where blind people can access library services), access to the internet and digital technologies, i.e. through the internet access point provided at mini-libraries and the devices the library provides free of charge to all registered members and lastly the integration of people with disabilities in society, i.e. creating employment for blind people.

The **Medium Term Strategic Framework 2014-2019** (MTSF) present the ideals of the NDP in a more practical format. The Library's work is in support of various broad objectives outline in the MTSF such as skills development, i.e. the apprenticeship program and through the development of the SiSwati Manual for Braille Teachers, staff and job creation, i.e. appointing blind people at the library and as braille proofreaders. The MTSF is clear in its intention to establish an efficient, effective and development oriented public service. The SA Library for the Blind is supporting this objective in the way it manages its Finances and Performance information and having a clear objective to achieve clean audits.
The SALB mandate is in line with the MTSF by focusing on the creation of a better South Africa and contribution of a better Africa and a better world through the service and products we offer to our visually impaired members and stakeholders.

The core performance environment of the library is guided but not limited to the **South African Library for the Blind Act, Act 91 of 1998** and the broad goals and objectives of the Department of Arts & Culture with special reference to the **Mzansi Golden Economy Strategy** as it relates to:
- Job creation through the planned Apprenticeship program for blind and visually impaired Grade 11/12 learners;
- Access to information through continued production of accessible reading material and to participate with International Organisations to allow the free exchange of book files between countries;
- Revitalizing the public libraries of South Africa through the establishment of Digital Minilibrary service points in public libraries of all the provinces in South Africa
- Promotion of Linguistic Diversity through the production of accessible reading material in all the official languages of South Africa.

In addition, the Library will consider various options to provide Internet access for our members to allow access to electronic accessible services. The Library will increase its print and electronic marketing efforts to raise its visibility and collaborate with various organisations to attract more members.

The continuously growing financial and other resource demands of the annual audits will be raised and discussed with the Board and the Office of the Auditor-General in an effort to find a solution to the challenge.

Africa

The Library will identify opportunities to promote the work done by the Library in Africa. We will pursue opportunities to form partnerships with organisations in countries with established infrastructure to render Library Services or general services to blind and visually impaired people. This will be done with the assistance of strategic partners, nationally and internationally. To this end the Director of the Library made a presentation during August 2015 at a Conference of African Ministers of Arts & Culture. In a joint declaration issued after the Conference the need for the improvement of library services for the blind and people with sight impairment as well as other forms of impairment was noted. The Director also proposed the establishment of an African Network of Library serving blind people during the 6th Africa Forum Conference in Uganda during October 2015. This is the major conference attended by the majority of organisations from Africa representing blind people. This proposal has been actively promoted since then and will further promoted during applicable opportunities

Internationally

The Library is assisting the National Government of South Africa to address the issue of access to information by blind and visually impaired people of this country The South African Government is a signatory to the **United Nations Convention on the Rights of Persons with Disabilities**. One of the key responsibilities to be addressed is the responsibility to assist disabled people to live an independent life as indicated in the Preamble of the Convention and the freedom to seek, receive and impart information on equal basis, article 21.

To facilitate access to reading material the Library will continue to participate as a member of the Trusted Intermediary and Global Accessible Resources (TIGAR) project. The purpose is to maintain and expand an international accepted arrangement to addresses the International exchange of material between Trusted Intermediaries of in-copyright material that is acceptable for rights holders and organisations serving the information and reading needs of blind and visually impaired people.

In addition to this initiative and complementary to that is the **Marrakesh Treaty to Facilitate Access to Published Works for Persons Who are Blind, Visually Impaired, or Otherwise Print Disabled.** The Treaty has been internationally accepted in 2013. 53% of the African Union countries also accepted the Treaty including the South African Government. The Government is urged to ratify the Treaty. The Library also mad several recommendations to ensure that the main principles of the treaty is incorporated in the revised South African Copyright Legislation. It expected that this Legislation will be passed during 2018.

3. **Organisational environment**

The Library is a National Institution with very unique functions as the only Library for the Blind in the country and on the African Continent. The Library is therefore fully dependent on itself in terms of working out its organisational challenges in terms of Audio and Braille book production, training of staff in these disciplines and obtaining and making available the necessary resources to render services and products.

The Library continuously develops and implements a comprehensive training and development plan to expand and improve the skills of library staff and the volunteers of the Library.

To create jobs and to address the scarce skills challenge the Library will continue with the apprenticeship program for blind and visually impaired Grade 11/12 learners. This includes partnerships with other organisations for the Blind and Visually Impaired people to develop the required skills set.

The Library has been lobbying the Department of Public Works and the Department of Arts and Culture for the past 6 years to fund and register a building maintenance and expansion Project to accommodate its medium and long-term space needs. The inititiatve will be actively pursued during 2018/19.

The Library will continue to appoint people with the necessary requirements to establish the organisational structure in support of the mandate of the Library as a National Library.

The library's functions are in support of the Vision and Mission of the Department of Arts & Culture. Through the production and distribution of accessible media to blind and visually impaired people in South Africa this target group becomes part of social cohesion, nation-building, sharing in the art and culture of South Africa as well as its languages.

4. **Revisions to legislative and other mandates**

There have been no significant changes to the SA Library for the Blind's legislative and other mandates.

The Library is projecting a deficit of approximately R4.8m over the 2018/19 MTEF Period and this has been reflected in the Ene budget submission with a motivation. The surplus funds of the Library will be requested to be retained and used to offset this deficit. It is anticipated that after this MTEF cycle, the deficit will no longer exist and expenditure will be reviewed in each period.

Part B: Programme and sub-programme plans

6.   Programme 1: Administration

Sub-programme: 1.1 Human Resource & Support Services

Goal: To support the SALB Board, the Director and the Management team of the Library through the recording, reporting and provisioning of management information and provisioning of a competent workforce.

Sub-programme 2.2: Braille production

Goal: To produce Braille reading material in compliance with acceptable Braille rules and standards.

Function: The core function of Braille Production is to produce high quality, error-free braille material for people and library members who are visually impaired. This is achieved through the services of highly skilled Braillists in most of the official South African languages. Braille skills at this level are considered a scarce skill and are not easily transferable, which requires on-going training and development, not only in the area of recruitment, but also in terms of rolling-out braille production using the newly adopted Unified Braille Code.

Annexure 1 : Technical indicator descriptions

Programme 1: Administration

Sub-program 1.1 Human Resource & Support Services

Indicator title 1.1.1	Appointment of new staff members
Short definition	To expand the library's Human Resource base with the appointment of 5 new staff members as full-time employees by 31 March 2022
Purpose / importance	To ensure the availability of an adequate number of skilled and competent staff members to enable the Library to perform its mandate
Source / collection of data	Historical Human Resource data and expansion objectives proposed by the Management team of the Library
Method of calculation	The prioritization of Human Resource requirements based on submissions received from the management team of the library
Data limitations	The expansion is dependent upon the allocation of sufficient funding from the Department of Arts & Culture
Type of indicator	Outcome based
Calculation type	Cumulative
Reporting cycle	Quarterly and Annually
New indicator	No
Desired performance	The projected targets are desirable
Indicator responsibility	The Head: Human Resources
Indicator title 1.1.2	Apprenticeship program for Visually impaired learners

Short definition	To engage and develop the skills of 20 blind and or visually impaired learners through an Apprenticeship Program by 31 March 2022.
Purpose / importance	This objective will assist SALB to contribute toward the development of four blind and visually impaired learners per year, by exposing them to the working environment
Source / collection of data	Targets were determined based on internal capacity to dedicate required attention to the program
Method of calculation	Official confirmation of number of participating learners from partnering school
Data limitations	Responsiveness of the schools for the blind to participate in the programme
Type of indicator	Outcome based
Calculation type	Cumulative
Reporting cycle	Quarterly and Annually
New indicator	No
Desired performance	4 Blind and visually impaired learners participating in the program in 2018/19
Indicator responsibility	Head: Human Resources
Indicator title 1.1.3	Staff Induction Program
Short definition	Developed a formal Staff Induction Program by 31 March 2016
Purpose / importance	To assist with the smooth integration of newly appointed employees into the operations, functions and work culture of the SALB
Source / collection of data	Research and collation of information
Method of calculation	One plan

Data limitations	None anticipated
Type of indicator	Outcome based
Calculation type	Non-cumulative
Reporting cycle	Quarterly and Annually
New indicator	Yes
Desired performance	A functional induction plan
Indicator responsibility	Head: Human Resources
Indicator title 1.1.4	African Country Outreach
Short definition	To reach out to 5 African countries to develop capacity to render Library and Information Service to blind and visually impaired people by March 2022.
Purpose / importance	To engage with African countries interested to develop their library services in order to render library services to blind people
Source / collection of data	Correspondence with organisations in Africa
Method of calculation	Manual calculation of responses received
Data limitations	Difficulty in contacting relevant organisations in the various African countries
Type of indicator	Activity
Calculation type	Cumulative
Reporting cycle	Quarterly and Annually
New indicator	No

Desired performance	Reach out to one African country to develop capacity to render Library Services to the Blind and visually impaired people in 2018/19
Indicator responsibility	Director.

Programme 2: Business Development

Sub-programme 2-1 Library & Information Service

Indicator title 2.1.1	SALB produced Audio book titles catalogued
Short definition	To catalogue 2,970 audio book titles to the Library's collection by March 2022.
Purpose / importance	To increase the number of audio books in the collection
Source / collection of data	Production sheet; Aurora Library Management System
Method of calculation	Manually
Data limitations	Copyright clearance and digital Rights clearance; Library Management System down-time; Vacancies
Type of indicator	Output
Calculation type	Cumulative
Reporting cycle	Monthly and Quarterly
New indicator	No
Desired performance	To add 600 audio book titles to the Library's catalog during 2018/19
Indicator responsibility	Section head

Indicator title 2.1.2	SALB produced Braille book titles catalogued
Short definition	To catalogue 2,400 Braille book titles to the Library's collection by March 2022
Purpose / importance	To increase the number of Braille books in the collection
Source / collection of data	Production sheet; Aurora Library Management System
Method of calculation	Manually
Data limitations	Copyright clearance and digital Rights clearance; Library Management System down-time; Vacancies
Type of indicator	Output
Calculation type	Cumulative
Reporting cycle	Monthly and Quarterly
